BIC CODE: HRLC1

RIGHTS

Exclusive: WORLD

First comprehensive overview of the critical edition of the Mahābhārata.

"Philology and Criticism has been much needed in Mahābhārata studies for the past half-century. Adluri and Bagchee describe how the critical edition's evidence does not support theories of a prior oral epic or 'layering' in the text. Brilliant and persuasive!" —Bruce M. Sullivan, Professor of Comparative Study of Religions, Northern Arizona University, USA

"In their effort to reject current accounts of the Mahābhārata's textual history, Adluri and Bagchee introduce several nuanced and updated notions from neo-Lachmannism into the field of Sanskrit textual criticism. I cannot help being delighted at this empirical confirmation of Giorgio Pasquali's claim that the original of, say, a Chinese or Bantu text cannot be reconstructed unless one follows certain general rules, albeit adapted to the variability and specific requirements of particular texts." —Paolo Trovato, Professor of History of the Italian Language, University of Ferrara, Italy

The first book to present a comprehensive review of the Mahābhārata Critical Edition, with overviews of stemmata (textual trees), how the logic of the stemmata determined editorial choices, and an in-depth analysis of the edition's strengths and drawbacks. An invaluable asset to any scholar working contemplating serious work on the Mahābhārata.

Contents

Preface; Prologue; Introduction; Chapter One Arguments for a Hyperarchetypal Inference; Chapter Two Reconstructing the Source of Contamination; Chapter Three Confusions regarding Classification; Conclusion; Appendices.
