An online, self-paced curriculum for learning the basic techniques government agencies, citizen action groups, corporations and research institutions use to solve pressing environmental problems.

“This remarkable e-book contains everything you need to teach a rich, dynamic course on the practical and theoretical dimensions of environmental policy as well as to evaluate your students’ work. It integrates classic readings, commentaries, scenarios and assignments, along with videos of talks by faculty and presentations by students.”

—Judith E. Innes, Professor Emerita, Department of City and Regional Planning, University of California Berkeley, USA

Environmental Problem-Solving – A Video-Enhanced Self-Instructional e-Book from MIT’ offers an online, self-paced curriculum for college and university students who want to learn the basic techniques government agencies, citizen action groups, corporations and research institutions use to solve pressing environmental problems. The e-book includes links to short videos showing the best MIT student responses to weekly assignments and exam questions.

About the Author(s) / Editor(s)

Dr. Lawrence Susskind is Ford Professor of Urban and Environmental Planning and Head of the Environmental Policy and Planning Group at MIT. One of the founders of the field of environmental dispute resolution, he has been teaching at MIT and Harvard for 45 years.

Dr. Bruno Verdini is Director of the MIT-Harvard Mexico Negotiation Program and Lecturer in Urban Planning and Negotiation at MIT. He teaches MIT’s popular course the ‘Art and Science of Negotiation’.

Jessica Gordon is completing a PhD in Environmental Policy and Planning at Massachusetts Institute of Technology (MIT). Gordon has worked on environmental issues including climate change, natural resource management and food security.

Yasmin Zaerpoor is a doctoral candidate in Environmental Policy and Planning within the Department of Urban Studies and Planning at the Massachusetts Institute of Technology (MIT).
