Presents the ideology of mobility which Puritan leaders developed to justify migration and town founding.

“Using a mountain of sources, McDermott demonstrates vividly that Catholic and Aristotelean ideas informed and shaped the lives of 17th century New England farmers along the Merrimack River. Scholars that caricature New England will be disturbed: those wishing to humanize and understand historical New England will be informed and delighted.” — Barry Levy, Professor of History Emeritus, University of Massachusetts Amherst, US.

The Puritan Ideology of Mobility: Corporatism, the Politics of Place, and the Founding of New England Towns before 1650 presents the ideology of mobility which Puritan leaders developed to justify migration and town founding. New England towns were born as living “bodies politic” with a metaphysical basis in keeping with Christian corporatist theory.
