**BIC CODE:** CFA

**RIGHTS**

**Exclusive:** WORLD

**A new edition of Wittgenstein's book, allowing a more immediate comprehension of the text and dissolving several false problems that had deceived readers and scholars for a century**

"This is a welcome addition to the growing *Tractatus* literature. Both the presentation of Wittgenstein's text in surveyable tree form and the publication of the "supplements" in the two appendices will be very useful."—Duncan Richter, Professor of Philosophy, Department of English, Rhetoric, and Humanistic Studies, Virginia Military Institute

Bazzocchi disposes the text of the *Tractatus* in a user-friendly manner, exactly as Wittgenstein's decimals advise. This discloses the logical form of the book by distinct reading units, linked into a fashioned hierarchical tree. The text becomes much clearer and every reader can enjoy, finally, its formal and literary qualities.

### Contents

Foreword (Bazzocchi); Introduction (Hacker); Historical Note (Bazzocchi); Russell's Introduction; Wittgenstein's Preface; Tractatus logico-philosophicus; Appendixes: a. Supplements; b. "...and other rubbish" (discarded supplements).

### About the Editor

Luciano Bazzocchi, philosopher and AI expert, has benefited from his interdisciplinary skill to outline a new insight on Wittgenstein's *Tractatus*
