An analysis of UK's capacity to shape energy decision-making

This book analyses Britain's most recent nuclear project launched in the mid-2000s against a backdrop of rising international concerns about energy security and climate change mitigation. This case study offers insight into the public policy dynamics at work in British nuclear policies and confronts them to the prevailing neoliberal doctrine.

Readership

This book is meant for students and researchers in science and technology studies, political science, social sciences and contemporary British history. It will also appeal to energy think tanks, industry members or anyone keen to learn more about UK energy policies.

Contents

Acknowledgements; List of Abbreviations; List of Graphs, Tables and Figures; Introduction; Part I Agenda-Setting, Chapter One The British Nuclear State: An Anatomy; Chapter Two The Discursive (De) politicisation of Nuclear Power; Part II Policy-Design, Chapter Three The UK Nuclear Renaissance: Towards a New Paradigm for Experts/Citizens/Politics Relations; Part III Policy Implementation, Chapter Four Transcending the Private–Public Nexus in Reviving the British Nuclear Industry; Chapter Five Nuclear as a Transboundary Object: The Weight of Subnational and Supranational Dynamics; Chapter Six The State and Energy Markets: Neoliberal Interventionism in Market Regulation; Selected Bibliography; Index

About the Author(s) / Editor(s)

Lucie de Carvalho is a senior lecturer in British Politics and History at the University of Lille, France. Her research focuses on State governance and Britain's energy and environmental policies since 1979.
