6 x 9 inches

Series: Anthem Intercultural Transfer Studies

RIGHTS

Exclusive: WORLD

Provides a comparative ten-step model for revolutions and shows through comparison that these must be considered a global phenomenon of modernity.

This book, as the first volume of a multiple volume endeavor to analyze several revolutions of the “long” nineteenth and “short” twentieth century to show how revolutionary processes evolved, takes a closer look at the Atlantic Revolutions, that is, the American, the French, and the Haitian Revolution. It will therefore use a comparative ten-step model to emphasize similarities with regard to the revolutionary developments in different parts of the world. The book consequently aims at providing a general, but deeper, understanding of revolutions as a global phenomenon of modernity while explaining how revolutionary processes evolve and develop, and how they could and can be corrupted.

Readership

Political scientists and historians, general audience with an interest in revolutions and/or history as such.

Key selling points

- New theoretical model for the analysis of revolutions
- Global perspective on the history of revolutions
- Global approach to an important historical phenomenon
- Comparison of European and non-European case studies.

About the Author(s) / Editor(s)

Frank Jacob is a professor of global history (nineteenth and twentieth centuries) at Nord Universitet, Norway.
