

An Interdisciplinary Approach to the Theory and Practice of Wildlife Corridors

Conservation, Compassion and Connectivity

By Amy D. Propen

Pub Date: 16 July 2024

Binding: Electronic book text

Price: £25.00 £90.00 / \$35.00 \$140.00

ISBN: 9781785279201

Extent: 250 pages

Size: 153 x 229 mm / 6 x 9 inches

BISAC CATEGORY: LANGUAGE ARTS & DISCIPLINES / Alphabets & Writing Systems

BISAC CODE: LAN001000

BIC CODE: CFLA

RIGHTS

Exclusive: WORLD

Charts some best practices and makes new theoretical contributions about the design and creation of wildlife corridors.

An Interdisciplinary Approach to the Theory and Practice of Wildlife Corridors charts some best practices and makes some new theoretical contributions related to the design and creation of wildlife corridors in Anthropocene times. While the book will provide much of the knowledge necessary for a general and credible understanding of connectivity projects, it will also make a unique theoretical contribution to current knowledge about wildlife corridors by arguing that theories about compassion, empathy, and traditional ecological knowledge should inform wildlife corridor projects.

Key selling points

- Expands current knowledge and theoretical perspectives about wildlife corridors.
- Recommends the inclusion of interdisciplinary theories and philosophies in the conceptualization and planning of wildlife corridors, including compassionate conservation, entangled empathy, and traditional ecological knowledge, as well as a non-anthropocentric vantage point that understands people and wildlife as needing to coexist and share spaces in an age of Anthropocene climate change.
- Acknowledges the range of ways that people and wildlife can coexist.

About the Author(s) / Editor(s)

Amy D. Propen is an associate professor of writing at the University of California, Santa Barbara, and author of *Visualizing Posthuman Conservation in the Age of the Anthropocene*.
