RIGHTS

Exclusive: WORLD

A study of the state of affairs of artificial intelligence in key locations around the world

Artificial Intelligence, or AI, is set to redefine our day-to-day activities. Many companies across the globe are engaged in doing research on the application of AI in almost each and every aspect of our life. Many companies have already integrated AI in their manufacturing, supply chain, marketing and after sales operations, but there is a lot that needs to be done to capitalize the full potential of this technology. *International Perspectives on Artificial Intelligence* is an attempt to put together the work done across various countries on adapting and integrating Ai not only in organizations but also at individual and social levels.

About the Editors

Mark Munoz is a Professor of International Business at Millikin University in Illinois, and a former Visiting Fellow at the Kennedy School of Government at Harvard University. He is the recipient of several awards including four Best Research Paper Awards, an international book award, a literary award and the ACBSP Teaching Excellence Award among others. Aside from top-tier journal publications, Munoz has published over 20 books including *Winning Across Borders; International Social Entrepreneurship; Contemporary Microenterprises: Concepts and Cases; Handbook on the Geopolitics of Business; Managerial Forensics; Advances in Geoeconomics; and Global Business Intelligence*.

Alka Maurya is a Professor at Amity International Business School, Amity University, Noida. A Computer Science graduate, she has done her Masters in International Business from the Indian Institute of Foreign Trade, New Delhi. She has over 20 years of experience in teaching, research and consulting.
