6 x 9 inches

Series: Anthem Sociological Perspectives on Human Rights and Development

## Transformation of capacity building as a concept of practice within development

"The Transformation of Capacity in International Development" exposes the transformation of capacity building as a concept of practice within development through an examination of USAID's work in Afghanistan and Pakistan from 1977 to 2017. It has implications for the future of rights-based approaches to development, the international management of global security threats and sustainability of donor investments.

#### Contents

Acknowledgements; List of Figures; 1. Introduction; 2. Development Agendas and Donor Spaces: How Capacity Gained Salience; 3.
