“This collection of case studies enhances our understanding of the crimes committed by states and the rich and powerful. The range of cases is impressive as are the insights provided by the authors. Bringing together different aspects and dimensions of state crimes, this book will be an important ‘go-to’ for material and examples to support a shift in the focus of key areas of criminological enquiry towards a concern with the harms and crimes of the rich and powerful across different societies.” — Gerry Mooney, Senior Lecturer in Social Policy and Criminology, Faculty of Arts and Social Sciences, The Open University in Scotland

A collection of case studies investigating the crimes of the powerful, the social harms caused and the perpetuation of inequalities through lack of prosecution.
