A look at some of the ways that emotions have become important in our global societies

In the highly readable *Culture and Our Emotions*, Doyle McCarthy covers some of the main ways that emotions have become important in our global societies. She explains that emotional culture is important for understanding today's world, its markets, its politics and its mass media. To live today is to be emotionally intelligent in our relations and in our workplaces. In the modern age, global capitalism and mass media have shaped our emotions and made us more emotional. Public life has become a place where we search out emotional happenings: at shopping malls, concerts, sports events, memorials to death and disaster and in the pursuit of sports.

Readership

Academics and college students

Key selling points
