“A remarkable, beautiful, learned, and personal book that bears reading and re-reading. It starts with the question of why anything exists, and then explores the power of living in the ‘now.’” —Paul R. Fleischman, author of *Wonder: When and Why the World Appears Radiant, Karma and Chaos*, and other books

“The fashionable dualism of ‘magical thinking vs. rational thinking’ by which faith and reason are increasingly defined today has endured centuries of careful critique by theologians, philosophers of religion, and even philosophers of science. As an historian, Richard Striner offers us a wonderfully different and uniquely compelling confutation of this dualism.” — Michael Epperson, Founding director of the Consortium for Philosophy and the Natural Sciences and the History and Philosophy of Science Program at California State University, Sacramento, US

Spirituality for the Independent Thinker is a companion and guide for individualists who resist being told what to think about religion.
