“This is required reading for anyone who wants to catch our global, national, local vanishing present and to make sense of the alarming future. Politics, culture, the intellect, technology – Marder’s risk-taking interventions have embraced our struggles in these areas over the years. *Senses of Upheaval* allows us to see the principles holding them together.”

—Gayatri Chakravorty Spivak, University Professor, Columbia University, US and educational/ecological activist

“Very few philosophers are capacious enough in their thinking and erudite enough in their analysis to make meaningful interventions all the way from the microbial to the global. Michael Marder is one of these rare thinkers, and this collection of short essays confirms his status as a major public intellectual—part poet, part precision bomb. This book is essential for understanding the seismic upheavals that characterise our times.”

—Anthony Morgan, editor of *The Philosopher*

“Get ready for a thrilling philosophical ride through today’s convulsed world—the ride equipped solely with the relaxed lucidity of reflection.”

—Daniel Innerarity, Professor of Philosophy and Director of Gubernance Institute, San Sebastian

Spanning a decade of Michael Marder’s contributions as a public intellectual, *Senses of Upheaval* documents a period of exceptional global turmoil in intellectual, cultural, technological and political spheres.
