Exclusive: WORLD

A short introduction to comparative law and economics, a growing field in the interaction between law, economics and comparative political science.

The book is a short introduction to comparative law and economics, a growing field in the interaction between law, economics and comparative political science. It is a guide to economists, lawyers and political scientists looking for a brief overview. It includes both strands of the traditional literature, namely the role of legal families and microeconomic analysis of legal rules in a comparative perspective. The study of courts at the global level is complemented by comparative judicial politics.

Key selling points

Short introduction to a growing field in the interaction between law, economics and comparative political science.

There is no other quick reference in the comparative law and economics field at the moment.
