RIGHTS

Exclusive: WORLD

Uses several case studies to demonstrate key problems with the international extradition process, and possible reforms to improve its operation.

Extradition often prioritises international comity and state rights over individual protections. This can create unfairness and concerns about extraditee welfare. Using case studies, this book explores these issues and argues that defendant-centered reforms are needed to adjust these unequal levels of authority.

Readership

The book is aimed at academics, legal professionals, and general readers who have a direct involvement or interest in extradition, crime, and justice issues.

Key selling points

Discusses current problems with international extradition.

Uses case studies to approach the problem.

Touches upon the significance of globalisation.

Aims to counter the current unequal levels of authority that favour the power of the state over the rights of the individual.
