Appeals to a broad range of people across ages, values and political beliefs, and will change the way we live our lives

Ecosystems as Models to Restoring Our Economies appeals to a broad range of people across ages, values and political beliefs, and will change the way we pursue a resilient and sustainable economy. Just when you think there are no good paths forward, the knowledge of ecosystems guides the way.

Key selling points

The first comprehensive book to tie together the universal principles underpinning sustainable (self-regulating) economies and ecosystems

A deep understanding of our ecological and economic past, supporting a hopeful vision of the future

This book scratches joyfully at an itch that has spanned the centuries the shared structure and functions of earth's economies and its ecosystems

A reason for hope for a sustainable economic future, rooted in the ancient and most obscure wisdom of nature

About the Author(s) / Editor(s)

John H. Giordanengo is a founder and principal restoration economist of Economic Restoration Services, and principal restoration ecologist of AloTerra Restoration Services. John has 33 years of professional and academic experience in ecological restoration, business conservation, and economics, and has delivered over 250 professional talks, paper and books for audiences around the globe.
