RIGHTS

Exclusive: WORLD

Argues that the rapid rise of artificial intelligence and other pressing global challenges necessitate a fundamental reset in skills, career paths, and leadership approaches to prepare workers for the evolving workplace of the 21st century

Discover the skills required in the 21st-century workplace and learn how to train and hire for these skills so you can succeed as technology, nature, and society evolves. This groundbreaking book reveals the trends that will dramatically change colleges and workplaces across the world in the coming decade.

Key selling points

Contains the definitive discussion on 21st-century skills in the age of artificial intelligence and polycrisis

Describes the two core skills and ten complementary skills that will define both individual, organizational, and societal success in the future of work

Provides a blueprint for effective futuristic educational strategies relevant for all actors defining the workforce—countries, colleges, employers, and knowledge workers—one of which is bound to be you

Taps the author's experience in big tech, government, and startups in the United States, Asia, and Europe, and his in-depth research from Stanford and MIT on the future of work, technology, innovation, and risk from a transdisciplinary perspective

About the Author(s) / Editor(s)

Trond Arne Undheim is a futurist, scholar, speaker, podcaster, venture partner, and entrepreneur based in the United States. He has worked at Stanford, MIT, WPP, Oracle, and the European Union. He holds a PhD on the future of work and artificial intelligence and has authored seven books.
