RIGHTS

Exclusive: WORLD

A collection of short stories by North Korean authors, offering a rare insight into the everyday lives, struggles, and human experiences of ordinary North Koreans amid societal and political challenges

Hidden Heroes is a collection of short stories from the 1980s to present that unveil the lives of ordinary North Koreans. Through themes of identity, community, and power, it reveals a complex society, offering readers a nuanced understanding beyond prevailing stereotypes.

Readership

The intended readership is academic and the book will certainly be used as part of a number of DPRK- or socialism-related classes in Anglophone universities across multiple fields (area/cultural studies, literary studies, political science, anthropology, international relations, history). But the stories are also broad and engaging enough to appeal to any reader with an interest in North Korea or communism.

Key selling points

The first English language anthology of North Korean literature

A rare view into the everyday lives and psyche of North Koreans

Essential read for anyone with an interest in the DPRK or communism, from academics to policymakers as well as just curious readers

A chance to engage with a radically different type of literature. While all the works have elements of propaganda, they are literary texts in their own right, written by the country's most renowned writers

About the Author(s) / Editor(s)

Immanuel Kim is the Korea Foundation and Kim-Renaud professor of Korean literature and culture studies at The George Washington University.

Benoit Berthelier is a senior lecturer in Korean Studies at the University of Sydney.
